ELEMENTARY DRESS POLICY

A student's dress/appearance shall not cause distractions and/or disruptions that will impede the orderly progress of the educational process or safety of the individual. The responsibility for determining what constitutes a dress/appearance distraction rests with the administration and/or professional staff of each school building. Final authority rests with the Board of Education. The student dress expectations include the school day and school-sponsored extracurricular activities.

Students shall observe modes of dress and standards of personal grooming that are in conformity with the educational

environment and necessary to maintain an orderly and safe atmosphere for all students. Apparel is expected to conform to reasonable student standards of modesty, and as such, no excessive or inappropriate areas of skin or undergarments may be exposed. No apparel or grooming which presents a safety concern is permitted. No apparel displaying messages that are gang-related, sexually explicit, vulgar, violent or advocating illegal activities are permitted. Further, no clothing or personal grooming that disrupts, or can be forecasted to disrupt, the educational environment is permitted. (De Soto Policy 2651)

The De Soto School District 73 requires that all students and parents adhere to, but are not limited to, the following guidelines:

1. No midriff tops, bathing suits, spaghetti straps, or tank tops shall be worn. Shirts and blouses need to cover: from neck to shoulders (both sides), have a full back and be long enough to cover the entire torso. No cleavage is to be exposed.
2. No see through clothing shall be worn. Undergarments must not show.
3. No hats, caps, or bandanas.
4. No clothing which illustrates, with words or symbols, statements condoning alcohol; tobacco or drug use, views concerning sexual issues, or depictions of violence or profanity.
5. No student on or about school property or at a school function shall wear, possess, use, distribute, or display or sell clothing, jewelry, large chains, emblems, bandanas, symbols, signs, or other things which are evidence of membership of affiliation in any gang or cult.
6. No spiked or studded jewelry or large wallet chains.

Physical Education Dress Policy: Students should wear suitable shoes for physical education activities. Tennis shoes are preferable, but shoes with rubber soles, flat heels, and good support may be worn as well.

Recess Dress Policy: Dress should be appropriate for the weather. Students will go outside during the winter months and will need warm coats, gloves, hats, etc.

STUDENT ATTENDANCE DESOTO POLICY 2310

The purpose of the attendance policy of the De Soto School District is to encourage regular school attendance. The Board of Education believes that regular and punctual attendance is an important factor in a student's success in school. An integral part of the learning experience is the interaction between students and teachers. Students who are absent from school are not able to participate in class discussions, small-group activities, or class experiments. They miss out on explanations of concepts and ideas that will appear on homework assignments and tests. Missing school results in poor work habits, lower grades, lower self-esteem, and a lack of self-discipline. Since there is a direct relationship between attendance, grades, and success in school, the board believes that students must maintain a good attendance record.

STUDENT ATTENDANCE

1. Definition of Terms
 - a. *Truancy* – a pupil's absence from school without his/her parent's knowledge or consent
 - b. *Tardy* – arriving late for school or class, regardless of minutes missed.
 - c. *Early Sign Out* – leaving school prior to the end of the school day, regardless of minutes missed.
 - d. *Absent* – not present. If a student is absent 10% or more of the days enrolled they are considered chronically absent. A day's absence is defined as more than half of the student's day

- e. *Unexcused absence*-absences not due to an extraordinary circumstance such as but not limited to vacation, truancy, out of school suspension and absences not verified in accordance with the procedures listed in regulation 2310.

ELEMENTARY (K-6) ATTENDANCE POLICY

Absences are to take care of extraordinary circumstances concerning:

- a. Personal illness
- b. Doctor's appointment that could not be scheduled outside the school day
- c. Other serious or family problems

There are only 168 school days within the school year. Therefore, vacations, truancy, OSS, and absences not verified in accordance with the procedures listed in regulation 2310 are not considered extraordinary circumstances and will be counted as unexcused absences.

Attendance at the K-6 level is vital to the educational process. Any absence from school requires a phone call from the parent showing why a student is not in attendance and that the absence is beyond the student's control. Any day a student is absent is counted as part of their total days of being absent. After the sixth (6th) absence in a semester, verification of an absence should include written documentation from a doctor, this documentation should be provided to the school within 48 hours along with a parent phone call. Examples of written documentation include, a doctor's note verifying the student is absent due to a doctor's appointment that cannot be scheduled outside the school day that includes the appointment start and end time, a dentist's note to verify a dental appointment that cannot be scheduled outside the school day that includes the appointment start and end time, and/or official written verification of absence due to a death in the family. The attendance appeals committee reserves the right to reject a doctor's notes not submitted within the required 48 hour timeframe after an absence, that does not include appointment times, or that does not provide sufficient evidence that the appointments that could not be scheduled outside the school day.

The school will make every effort to notify parents when a student has missed three (3) days (by a letter and/or other communication) and five (5) days (by a letter and/or other communication). It is still the parents' responsibility to make the school aware of the student's absences as they occur.

On the seventh (7th) absence in a semester, a letter will be sent to the parents explaining that the child has exceeded the absence limit which could result in failing grades and/or retention for the semester or if applicable, the student will be required to return to their home school of residency. The parent and student may appeal this decision to the attendance appeal committee. In order to be in compliance with state law, the school will notify either the District Juvenile Office and/or Division of Family Services, whichever applies, after the student's eighth (8th) absence for students under the age of sixteen (16).

A record of calls from parents will be held in the office with reasons listed for absences as they are given by the parents. These should prove informative if an appeal process is started.

Excessive Tardiness or Leaving Early

- a. Six (6) tardies in a semester, regardless of minutes missed, will result in a one (1) day absence.
- b. Six (6) times leaving school early in a semester, regardless of minutes missed, will result in a one (1) day absence.

If students are not attending home elementary after 6 tardies or 6 times leaving school early, a letter from Office of Superintendent will be sent to parents notifying of relocation to home elementary effective immediately.

Appeals

If students are absent in excess of the six (6) total days per semester absence and a parent would like to appeal, they must submit their request in writing to the building principal to meet with the appeals committee 15 days prior to the end of the semester. If the seventh absence occurs during the last 15 days of a semester, the parent must call and submit a written request for an appeal prior to the end of the semester. Both the student and parent/guardian must attend the appeals committee meeting and bring all necessary documentation to the committee. Any additional documentation should be turned in with the appeal letter and brought to the appeals committee meeting. The committee, which will be comprised of administrators, counselors, and teachers, will determine if the student has the documentation needed to prove reasons for the absences. Documentation not submitted within 48 hours of an absence may not be considered unless there are extraordinary circumstances. A ruling of passing grade advancement to next grade level, or probation will be assessed at the close of each hearing or will be followed up by a formal letter from the attendance committee.

All students will be afforded due process as guaranteed by constitutional provisions. The process will be in accordance with state law, as well as the provisions outlined in the Board policies and regulations on student attendance.

Physical Education Absences: In order for a student to miss physical education activities, he/she must bring a note from a physician or have special permission from the building administration.

PERFECT ATTENDANCE

To be eligible for perfect attendance and to receive the end of the year perfect attendance reward, a student must be in school every day school is in session and may miss no more than 5 total hours for the entire school year.

EMERGENCY PROCEDURES

Emergency Drills: Throughout the year, earthquake, fire, tornado, and intruder drills are planned by the building administration in conjunction with the District's Central Office and civil authorities.

1. **Fire Drill:** The signal for a fire drill will be the continual sounding of the fire alarm. Students are to evacuate the building with their class. Teachers are to call roll to ensure that all students are accounted for.
2. **Tornado Drill:** The signal for a tornado drill will be a number of short rings of the bell and an announcement over the intercom. No one will leave the building for any reason. Students will go to designated areas and teachers will take roll.
3. **Earthquake Drill:** Students should protect themselves by getting under their desks/tables and remaining there until

further notice. When safe, the building will be evacuated using standard fire drill procedures.

4. **Active Shooter/Intruder Drill:** During the drill, doors are closed and locked. Students and teachers remove themselves from sight of the door. Should the intruder gain entry to your previously secure location, you should be prepared to take actions that interrupt the intruder's ability to cause harm. These acts will depend on the situation and your physical abilities. Consider engaging in acts that will create noise, movement, distance, or distractions. The situation will be monitored with real time information; students and staff should be prepared to move to safety.

HEALTH SERVICES

Health Services: The Board of Education believes that in order to provide for the safety and well-being of its students, it is necessary to implement and maintain a district-wide student health services program. The district will be responsible for providing first aid or emergency treatment for students in cases of sudden illness or injury. Where necessary, with notice to the parent/guardian, emergency health services will be secured. The parent/guardian is responsible for his/her child's medical treatment. (De Soto Policy 2830)

Emergency Information: At the time of enrollment or at the beginning of each school year, every student receives an "Emergency Information Form." Parents/Guardians are required to complete the form by providing emergency contact information. Parents are encouraged to update this information during the school year.

Medication: A student found possessing and/or using any type of medication, (medication includes: prescription, over-the-counter drugs, and herbal preparations) is subject to disciplinary action. The district does not supply any type of medication. A student may bring personal medication by following these directions:

1. All prescription medication must be labeled from a pharmacy with the student's name, dosage, date, name of medication, how it is administered, and the doctor's name.
2. Written permission from the parent/guardian is required stating that a student may take medication during school hours. Parental permission and the medication must be given to the nurse prior to the start of the school day.
3. Medication that is not in the original container, prescription bottle, and/or is not turned in with written permission from a parent/guardian will be held in the nurse's office.

Head Lice Screening: The first reported case is screened. If nits or lice are found, parents are notified and the child is sent home. Siblings and classmates are then screened. Students must be treated at home and checked by the nurse prior to returning to class. A no-nit policy is put into effect. The bus supervisor and principal are notified; parents must bring the child to the nurse for proof of no lice and nit-free. If the child does not return to school in one week, Children's Division is notified. Students returning to school will be checked weekly until nit-free for thirty days.

Student Accident Insurance: The Board of Education will provide the opportunity for parents/guardians, students, and others to purchase student accident insurance on an annual basis. Each year the administration will choose a provider offering group rates and will make the information available to district families. Participation in any group plan is optional and arrangements for participation are the responsibility of the parents/guardians or students. (De Soto Policy 2840)

INSIDE RECESS

In the event of rainy or wet weather, supervised indoor recesses are provided for all students. If a student must stay indoors during recess on other days, the parent/guardian should send a note to the classroom teacher for each day that a student must remain indoors.

Temperature Guidelines for Recess and Outdoor PE

It is the District's procedures that during cold weather, the decision for outside recess will be based on weather factors such as wind chill, snow, rain, cloud cover, wind, etc. These factors will be used by the building level administration to

determine whether or not it will be beneficial for children to go outside.

Suggested Outline is as follows:

Temperature – including wind chill or heat index

Below 30 degrees – stay inside

31–98 degrees – normal outside time

99 degrees and above – stay inside

For the well-being of the students, the principal maintains the school expectation that students will dress appropriately for the weather. Students will wear long pants or cover their legs when the temperature is below 45 degrees. Coats and/or jackets are also required by students going outside when the temperature is below 45 degrees.

Extremely cold weather can be very dangerous. Parents and guardians should be certain that their children are appropriately clothed with mittens, hats, coats, etc., so they can be comfortable both inside and outside. Most days your student is going outside for some period of time either at recess or traveling to/from school.

INSTRUCTIONAL SERVICES

The primary focus of the district's staff and programs is maximization of student learning. While learning occurs as a result of extracurricular activities and as a result of non-structured interaction between students and between students and staff, most learning occurs as a result of planned learning activities during class time. Therefore, every effort will be made to minimize disruptions in instructional time. (De Soto Policy 6210)

Progress Reports: Progress reports/Midterm reports are distributed following the midpoint of each quarter.

Report Cards: Report cards are distributed to the students on the fifth school day following the end of the quarter.

In the DeSoto School District, we view grades as a method of communication for students, parents, teachers, and administrators to have a conversation about learning progress.

Student performance is assessed on a continual basis throughout the school year. This evaluation assesses student growth in expression of ideas, communication, achievement of educational goals, and personal growth and development. Grades will be assigned based upon student ability, achievement, effort and cooperation. (DeSoto Policy 6450)

In order to communicate this continual progress toward mastery of our grade-level learning standards, teachers calculate grades using two categories: formative and summative assignments/assessments. *Formative* work provides ongoing feedback that can be used by teachers and students to monitor students' learning progress. These types of assignments count for 20% of a student's grade. *Summative* work is a measure of student learning after formative work and is a reflection of District learning objectives that were taught within the instructional period. A grade should communicate what a student has learned, and summative grades are typically taken at the conclusion of the study of new materials, the majority of the course grade (80%) is composed of summative grades.

The key to understanding the difference between the two is to understand the *purpose* and *use* of the work. In determining which category to assign the work to, teachers consider:

- Why is this work assigned?
- What is the purpose of the assignment?
- How does the teacher intend to utilize the assignment?
- Will it allow the teacher to determine where students are while in the middle of a unit, so the teacher may adjust instruction prior to the end of unit test?
- Will it allow the teacher to see what the students have learned before moving onto another unit?
- Does this assignment demonstrate a student's final level of mastery of this concept, or is there still more learning to come before the final grade is taken?

Below are some examples of what *might* constitute a formative or summative assignment:

FORMATIVE (20%)	SUMMATIVE (80%)
<ul style="list-style-type: none"> ● Worksheets ● In-class discussion participation ● Exit cards ● Short quizzes ● Quick writes 	<ul style="list-style-type: none"> ● A paper-pencil chapter/unit test ● Large presentations ● Essays/Research projects ● Final exams ● Labs

*This list is not all inclusive or exclusive, it is the intent of the teacher when assigning the work. .

Conferences: Parent/Teacher conferences are scheduled at the end of the first quarter. Other conferences may be scheduled as needed.

Other Parent Contacts: Teachers and parents are encouraged to contact one another for various reasons by telephone, note, and email.

Promotion and Retention Practices: The purpose of promotion and retention is to provide maximum consideration for the long-range welfare of the student and to provide an opportunity for each student to progress through school according to his/her own needs and abilities.

It is expected that most students in the schools will be promoted annually from one grade level to another upon completion of satisfactory work; however, a student may be retained when his/her standards of achievement or social, emotional, mental, or physical development would not allow satisfactory progress in the next higher grade. Retention normally occurs before the student leaves the primary grades.

The district requires remediation as a condition of promotion to the next grade level for any student identified by the district as failing to master skills and competencies established for that particular grade level. Remediation may include, but shall not be limited to, a mandatory summer school program, and before or after school tutoring program, or other

such alternatives conducted by the district outside of the regular school day.

In evaluating student achievement, each teacher will make use of all available information, including results of teacher created tests and Balanced Classroom Assessments, other measures of skill and content mastery, standardized-test results and teacher observation of student performance. The principal will direct and aid teachers in evaluations, and will review grade assignments in order to ensure uniformity of evaluation standards. (De Soto Policy 2520)

READING LEVELS AND STATE-MANDATED RETENTION

Third Grade Students: Third grade students who cannot demonstrate a reading level at or above the third grade level will be administered a reading assessment within forty-five days of the end of their third grade year. If this assessment reflects that the student is reading below the second grade level, the district will design and implement a reading improvement plan (RIP) for the student's fourth grade year. The RIP must include a minimum of thirty hours of additional reading instruction or practice outside of the regular school day during the fourth grade year. In addition, the district may require the student to attend summer school for reading instruction as a condition of promotion to fourth grade. (De Soto Regulation 2520)

Fourth Grade Students: Within forty-five days of the conclusion of the fourth grade year, the district shall administer another reading assessment to those fourth grade students for whom reading improvement plans had been designed. If this assessment reveals that the student is reading below a third grade level, then the student shall be required to attend summer school to receive supplemental reading instruction. At the conclusion of summer school, the student shall be given another reading assessment. If the student is still reading below third grade level, the student shall not be promoted to fifth grade. (De Soto Regulation 2520)

Fifth and Sixth Grade Students: The reading assessment process shall be repeated on a yearly basis through the end of students' sixth grade year, accompanied by a corresponding increase in the required reading level. The reading assessment process will also be applied to students who initially enter the district in grades four, five, and six. (De Soto Regulation 2520)

LIBRARY/MEDIA SERVICES

Mission: The mission of the De Soto School District library/media center is to support and enhance the teaching and learning environment by encouraging students and staff to become literate and effective users of information and technology.

Operating Hours: Every student has access to the library through "free flow" times and through scheduled, weekly or biweekly visits to the library. Students are permitted and encouraged to check out books as often as needed. The Vineland library/media center is open Monday through Friday from 8:00 a.m. until 4:00 p.m.

COMMON AREA RULES

Good behavior in common areas, as in any area on school premises, is simply a matter of behaving courteously and rationally.

Bus Behavior: The safety of students during their transportation to and from school is a responsibility which they and their parents/guardians share with the bus drivers and school officials. (De Soto Policy 2652)

Student Responsibilities While on the Bus: The privilege of riding the school bus carries with it some responsibilities on the part of the student. STUDENT STANDARDS OF CONDUCT AND CONSEQUENCES

The District has the authority to control student conduct which is prejudicial to good order and discipline in the schools as provided by state law. School officials are authorized to hold students accountable for misconduct in school, on school property, during school-sponsored activities and for conduct away from school or in non-school activities which affect school discipline.

Students forfeit their right to a public school education by engaging in conduct prohibited in Regulation 2610 and related provisions. Violations of guidelines and policies will be administered according to District Policies. Disciplinary consequences include, but are not limited to, withdrawal of school privileges (athletics, intramurals, student clubs and activities, and school social events); reassignment of the student to another school; removal for up to ten school days by school principals; extension of suspensions for a total of 180 days by the superintendent; and longer term suspensions from school by the Board of Education. In addition to the consequences set forth above, which are not exhaustive, staff, students and parents may engage, as appropriate, in additional methods of addressing the conduct, including a respectful and equitable process of problem solving, repairing relationships, offering restitution (righting wrongs), and implementing a personalized plan of support for behavioral improvement.

The District will provide annual in-service training to all employees concerning the district's discipline regulations and their implementation. Annual training will also include, but will not be limited to, approved methods of dealing with school violence, discipline of students with disabilities and the requirements of student confidentiality.

Teachers shall have the authority to make and enforce necessary rules for the internal governance in the classroom, subject to review by the building principal. The board expects each teacher to maintain a satisfactory standard of conduct in the classroom. Any time a referral that warrants formal disciplinary action is submitted, a reasonable effort will be made by the principal to either contact the parent or guardian by written notice delivered by the student, through the mail or by direct telephone contact.

A copy of the District's comprehensive discipline policy (DeSoto Policy 2600 and Regulation 2610) will be provided to every student and parent or guardian of every student at the beginning of each school year and will be available in the superintendent's office during normal business hours and online at:

http://www.desoto.k12.mo.us/administration/de_soto_board_of_education/board_of_education_policies

Behavioral Expectations

All students attending school in district schools will be expected to accept the obligation and responsibility to attend

school on a regular basis and to comply with the district's discipline code set forth in Regulation 2610. Those students who choose not to fulfill their responsibilities at school will be held accountable for their conduct. Consequences for individual acts of misconduct are calculated to discipline the student to deter future misconduct and to provide a safe and positive environment in which students can maximize their learning potential. Students who engage in significant acts of misconduct off campus which materially and adversely impact the education of district students will be subject to discipline up to and including expulsion. De Soto School District Bullying Policy

The District is committed to maintaining a learning and working environment free of any form of bullying or intimidation. Bullying is strictly prohibited on school grounds, or school time, at a school sponsored activity or in a school related context. Bullying is the intentional action by an individual or group of individuals to inflict intimidation, unwanted aggressive behavior, or harassment that is repetitive or is substantially likely to be repeated and causes a reasonable student to fear for his or her physical safety or property; substantially interferes with the educational performance, opportunities, or benefits of any student without exception; or substantially disrupts the orderly operation of the school. Bullying may consist of physical actions, including gestures, or oral, cyberbullying, electronic, or written communication, and any threat of retaliation for reporting acts of bullying.

Cyberbullying means bullying as defined above through the transmission of a communication including, but not limited to, a message, text, sound, or image by means of an electronic device including, but not limited to, a telephone, wireless telephone, or other wireless communication device, computer, or pager. The District may prohibit and discipline for cyberbullying that originates on any District campus or at a District activity if the electronic communication was made using the school's technological resources, if there is a sufficient nexus to the educational environment, or if the electronic communication was made on the District's campus or at a District activity using the student's own personal technological resources. Further, students who engage in significant acts of misconduct off campus which materially and adversely impact the education of District students will be subject to discipline.

Bullying, as defined in this policy, is strictly prohibited. Students are encouraged to report any incident of bullying which they have witnessed or incurred, by contacting their building principal. District employees are required to report any instance of bullying of which the employee has witnessed within two (2) school days of the occurrence. Employees shall report the occurrence to the building principal, who is the person the District designates to receive reports of incidents of bullying. A principal who receives a report of an incident of bullying shall initiate an investigation into the allegations within two (2) school days of receipt of the report. The principal may assign other employees to assist in the investigation, or request that the superintendent assign an outside investigator. The investigation shall be completed within ten school days from the date of the written report of bullying unless good cause exists to extend the investigation. No employee or student who reports an act of bullying shall be subject to reprisal or retaliation for making such a report. Any person who engages in reprisal or retaliation against an employee or student who reports an act of bullying shall be subject to disciplinary action.

Students who are found to have violated this policy will be subject to consequences depending on factors such as: age of student(s), degree of harm, severity of behavior, number of incidences, etc. Possible consequences to a student for a violation of this policy include: loss of privileges, classroom detention, conference with teacher, parents contacted, conference with principal, in school suspension, out-of-school suspension, expulsion and law enforcement contacted.

The District shall give annual notice of the policy to students, parents or guardians, and staff. This policy shall be included in all student handbooks. This policy shall also be posted on the District’s web page (as a Board policy) and a copy shall be placed in the District Administrative Office.

The District shall provide information and appropriate training to District staff who have significant contact with students regarding the policy. All staff with significant student contact shall be trained on the requirements of this policy on an annual basis.

The District shall provide education and information to students regarding bullying, including information regarding this policy prohibiting bullying, the harmful effects of bullying, and other applicable initiatives to address bullying, including student peer-to-peer initiatives to provide accountability and policy enforcement for those found to have engaged in bullying, reprisal, or retaliation against any person who reports an act of bullying. The District shall instruct its school counselors, school social workers, licensed social workers, mental health professionals, and school psychologists to educate students who are victims of bullying on techniques for students to overcome bullying's negative effects. Such techniques include but are not limited to, cultivating the student's self-worth and self-esteem; teaching the student to defend himself or herself assertively and effectively; helping the student develop social skills or encouraging the student to develop an internal locus of control. District administrators will implement programs and other initiatives to address bullying, to respond to such conduct in a manner that does not stigmatize the victim, and to make resources or referrals available to victims of bullying.
